Great content is already here...

- 4 Nature is a great teacher. A river never stops flowing. If it finds an obstacle in its way in the form of a heavy rock, the river water fights to remove it from its path or finds an alternative path to move ahead. This teaches us to be progressive in life, and keep the fighting spirit alive.
- 5 Snakes are worshipped as they eat insects in the field that can hurt our crops, thus protecting the grains for us. In fact, whatever we worship is our helper and makes our lives easy for us. There are many such examples in nature, but we are not ready to learn a lesson. Overcome with greed, we are destroying nature. As a result, we face natural disasters like droughts, floods and landslides. We don't know that nature is angry with us.
- 6 However, it is never too late to learn. If we learn to respect nature, the quality of our life will improve.

- 2.1 Answer briefly the following questions : 2×4=8
- (a) What are we taught in our childhood and growing up years ?
(b) Why should we respect our parents and teachers ?
(c) What message do we get when we worship nature ?
